Statement re Fuel Crisis

After a long and agonizing couple of weeks, the committee of Walkerville All Cars Club Inc. has decided that the only practical decision is to postpone day 1 of the Rally skills Program (RSP) on Saturday 18 April and the Rally Sprint on Sunday 19 April.

This decision has not been made lightly.

The committee took into consideration the cost and availability of fuel for both competitors and officials.

They also considered the possible negative public perception of running an event while farmers, the transport industry and essential services are having problems in procuring enough fuel.

As soon as the situation in Gulf clarifies, we will advise further.
